Press Release  
26 April 2021

## WALTERS & COHEN ARCHITECTS WINS COMPETITION TO DESIGN MASTERPLAN AND NEW BOARDING HOUSE FOR WYCOMBE ABBEY SCHOOL

Walters and Cohen Architects has won a competition to design the masterplan and new boarding house for Wycombe Abbey School beating MICA, Scott Brownrigg, David Morley Architects and IID.

Founded in 1896, the school is located on a 170-acre campus near High Wycombe, Buckinghamshire. It has been developed in phases since 1896 but with earlier periods of influence including landscape which benefits from the involvement of Capability Brown in the 1760's. The grade 2\* listed Abbey designed by James Wyatt is the focus of the academic accommodation while the boarding accommodation sits in 167 acres all accessible to the students.

Walters & Cohen Architects are delighted to be working with Wycombe Abbey School and look forward to developing a world class environment for them.

## Notes to editors:

### **About Walters & Cohen Architects**

Walters & Cohen is an award-winning architectural practice with more than 50 education projects completed, including pre-school and children's centres, primary schools, secondary schools and masterplans. The practice goes from strength to strength and is well known for its innovative designs that delight and inspire, in particular in the education sector. In 2018 the practice completed their first university project, a building for Newnham College, Cambridge, which was named RIBA East's Building of the Year 2019.
